Seattle, WA 98195

Student

Projects

-kevinliang.rf.gd

- Personal website including information about my skillset and a blog created with HTML/CSS
- Input validation and connection to MySQL database with PHP

-Stock Info

- Web app (<http://stockinfo.epizy.com/>) that utilizes Alpha Vantage's API and displays stock information for daily transaction information and displays it in a graphical form.
- Front-end created with HTML, CSS, Bootstrap, and Chart.js. Back-end developed with PHP when interacting with the API and validating inputs.
